

Unwrap success! This year, give your team the gift of learning.

Calling all Employers... In a tightening labour marketplace, and with the challenges of upskilling staff in tech and ICT, consider giving your employees the gift of learning.

Why upskill your team with us?

At Technology Ireland ICT Skillnet, we strive for excellence in talent development by preparing your staff for their future tech skills needs.

Your training costs are subsidised, your employees feel more invested in and are less likely to leave, and the company gets the benefit of best-in-class skills and competencies.

Industry-approved professional programmes

Online, blended, and in-company training supports

Government-subsidised programme fees, up to 100%

Explore our range of training programmes starting in January

Upskilling your team helps them to be more agile and effective in the face of industry and technological disruption. Equipping your staff with new skills makes them more productive, makes your organisation more efficient, and helps develop a learning culture that fosters genuine innovation.
